

FREE Water Use Surveys

The City of Fresno Water Conservation Program offers customers FREE Residential Water Surveys to help save water inside and outside the residence. This program is available for our single-family and multi-family customers.

During the water survey appointment, customers will learn how to use water more efficiently.

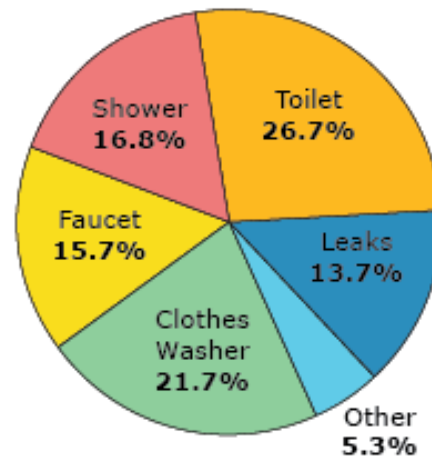

Interior Surveys

Interior surveys are designed to help you save water. The survey includes:

- Check for leaks at faucets, showerheads, toilets, clothes washers, and under sinks.
- Provide low-flow showerheads and faucet aerators, if needed.
- Explain rebates for high-efficiency clothes washers and toilets.
- Provide water conservation tips and literature.

REBATES for qualifying
High efficiency clothes washers and toilets.

Low Flow Products

Save water and save money

By installing low flow products including:

- Water- and energy-efficient clothes washers and dishwashers.
- Low flow shower heads.
- Aerators on kitchen and bathroom faucets.
- High efficiency toilets.

Look for the WaterSense label. These products meet the United States Environmental Protection Agency criteria as being the most water-efficiency.

Exterior Surveys Landscape Consultation

The City of Fresno's FREE landscape surveys are very popular with our customers. We show you methods of saving water in the yard by providing the following services:

- Inspect irrigation systems, and suggest improvements and adjustments.
- Discuss irrigation products.
- Help with your irrigation scheduling.
- Show you how to set your irrigation timer.
- Check for signs of faucet, pool, water feature leaks, etc.
- Answer questions about plants in your landscape.
- Provide a hose nozzle and other conservation materials.
- Provide water conservation tips and literature.

CREATING A FRESNO-FRIENDLY GARDEN PLANS
Landscape Consultation

Have questions about your landscape? Our landscape specialists can provide consultation for customers interested in converting present landscape into a landscape that is more water-wise. Changing out your landscape will save water and may even save on future labor and maintenance costs!

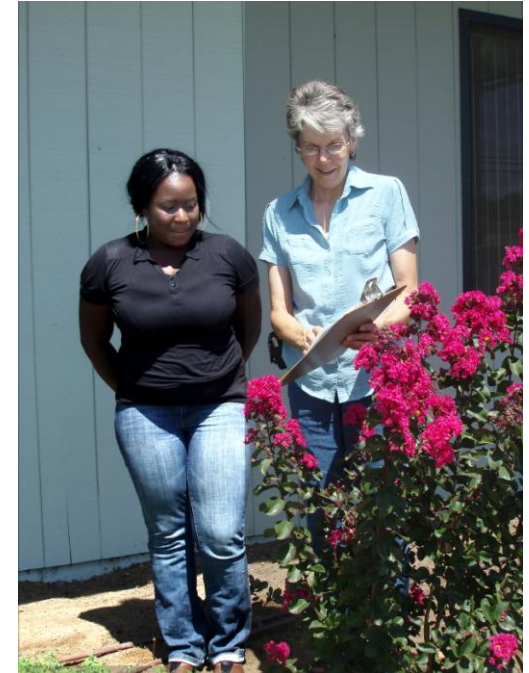

More Information!

If you want to know which plants help conserve water for your garden, contact us for free brochures about water-wise gardening in the Fresno area. Included is information about flowers and plants that flourish in Fresno's climate and require little water. Also request, "What You Should Know Before You Mow," written in English, Spanish and Hmong for all landscapers and home gardeners.
